

EMIX[®] APG-2

DESKTOP PAGING MICROPHONE WITH CHIME

A desktop paging microphone with chime is designed for clear and efficient voice announcements in commercial and public address systems. Featuring a built-in pre-announcement chime, it alerts listeners before each page, ensuring important messages receive immediate attention.

FEATURES:

- Built-in pre-announcement chime
- Clear and intelligible voice reproduction
- Stable desktop base with gooseneck microphone
- Compatible with most PA amplifiers and paging systems
