

# EMWM-206MKII

## VHF Dual Channel Wireless

A microphone must meet with today's demanding technical standards and provide great consistency and efficiency for a variety of applications. Whether for vocals, speech, karaoke, instruments, live performance, conference or recording, with our **EMIX** microphone range you will be able to find the right one for your application. **EMIX** microphones always deliver consistent audio reproduction in any application setting. Furthermore **EMIX** microphones are affordable.

**EMIX** EMWM-206MKII is our new and improved model for wireless microphone. This VHF wireless system is state-of-art design and high quality for stage, club, karaoke lounge, classroom, and home use. The microphone is built-in with 'MUTE' switch, which will conserve battery for longer usage. The 3-pin mini XLR input with adjustable gain is suitable for musical instrument.
