TA-8012
Amplifier Monitor Panel

TA-8012 Amplifier Monitor Panel

The Amplifier Monitor is intended for conveniently monitoring the output condition of any of the 10 duty power amplifiers installed for a Public Address System. The channel to be monitored can be selected using the shift key on the front panel. The monitor provides aural monitoring via the built-in monitor speaker, while the display screen provides quick and easy visual monitoring of input level. This Monitor Panel features a soft touch button selector that provides selection of up to 10 duty amplifiers and soft touch volume control which is used for selecting the desired sound level output of the speaker.

Features:
» Microprocessor based control, soft touch button
» 10 channel amplifier inputs
» Built in monitor speaker
 » LED Level indicator for every channel status
» Network PC control

Technical Specifications

	TA-8012 Amplifier Monitor Panel
Channels	10 channels
Input	70~100 V, 10kΩ
Output	65 dB variable
Frequency Response	100Hz-15kHz
Signal to noise ratio	80dB
Speaker	2" x 3" speaker
Protection	AC fuse x 1
Power Requirement	1. AC 230V/ 50~60Hz 2. DC24V
Dimensions	485 x 88 x 345mm
Net Weight	5.8 kg
